

The following **Google Trends chart** shows the five frameworks side by side. While noting that this chart *does* show disambiguated topic trends as detected by Google (as opposed to ambiguous **search term trends**), nevertheless it is clearly *not* an exact science.

Worldwide. Past 5 years. Web Search.

Google Trends interest over time for Electron, NW.js, Apache Cordova, Flutter, and React Native. [\[Source\]](#)

This trend is backed by **Statista stats**, according to which Flutter has passed React Native as the most popular framework.
